

Professional Service and Repair

Contrast has an in-house service department that can service and repair virtually any type of spray finishing and fluid handling equipment. Our certified technicians have decades-worth of experience and are available for on-site service calls at your facility.

Our service department also provides equipment cleaning, installations, fabrication, in-house component rebuilding, and testing.

Equipment we service:

- Spray Guns
- Pumps
- Proportioners
- Powder Coating Equipment
- Spray Booths
- Finishing Systems
- Ovens and Air Make-Up Units
- Metering and Circulation Systems
- Hot Melt Equipment

Why Contrast?

Because our expert technicians can reduce your production downtime by quickly servicing and repairing your equipment. We can also lessen the strain on internal maintenance resources, allowing them to work on more productive tasks. Lastly, we fix things right the first time, and for a price that doesn't break the bank.

Our approach

We diagnose what's wrong, provide a detailed quote, and only repair what you approve. We turn around equipment quickly, so you can get it back online, and then follow up to make sure everything is working smoothly.

Satisfaction guaranteed

All service technicians are factory-trained and we stand behind every piece of equipment we service.
